

Tutoring Services 2008-09

English Tutors are here to help you improve your spoken and written expression. They won't proofread your entire work but will review it for structure/grammar and offer feedback on how to organize your academic writing and presentations so that your main ideas are clear. They can also help with APA/MLA documentation, bibliographies, study skills, and other academic tasks.

English Tutor Availability		
	Trafalgar D103 MON-FRI	Davis B219 MON-FRI
Drop-Ins	12:00 - 1:00	12:00 - 1:00
Appointments	9 - 12 & 2 - 4:30	9 - 12 & 2 - 5

Math Tutors are here to help you with general math, most business math topics (finance, accounting, statistics, etc.), and some technical math topics. They can provide explanations of concepts and patiently help you problem solve your way to finding solutions and understanding the subject better. Talk to the tutor about your needs, meet regularly, don't leave it all until the day before a test.

Peer Tutors For specific courses you are currently registered in and are having difficulty with, we may be able to match you with an experienced Sheridan student to help you for up to 10 hours, per semester, per subject (max 3 subjects). We pay the tutor; you pay a matching fee of \$20 per subject. See our web site for complete details and to **apply online**.

Peer-Supported Learning Groups (PSLGs) help students acquire and refine the learning skills essential to master course content. They are led by a Mentor specially trained to help students become independent learners. Mentors are 2nd/3rd year students who have earned an A in the related course. PSLG Mentor's do not instruct, they facilitate sessions and encourage the group to process the material together rather than lecture to participants.
